I am wondering if you sell a cover for this amp: Fender Frontman 65R 65W 1x12 Guitar Combo Amp. Please let me know.

We do not carry one that is specifically made for the Fender Frontman, but this one should fit just fine: <http://www.music123.com/Accessories/Cases-Gigbags--Covers/Amplifier-Covers--Cases/Ultimate-Chorus-Amp-Cover.site7prod420035.product>

It probably will be a little bit big for it, but all the others ones we carry are either way too big or small. I hope this helps!
